

PRODUCT DESCRIPTION

Ecoza™ Rox is a concentrated neem-based botanical insecticide formulated with Azadirachtin, a naturally occurring bioactive compound extracted from the seeds of *Azadirachta indica*. It acts as a feeding deterrent, insect growth regulator, and oviposition inhibitor, helping control a broad spectrum of sucking and chewing insect pests by disrupting feeding, growth, development, and reproduction.

MECHANISM OF ACTION

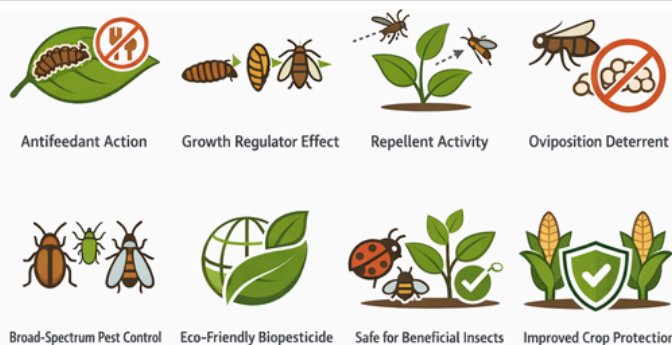

APPLICATION & DOSAGE

Foliar Spray	1–2 mL/L , 80–240 mL/acre
